WORK EXPERIENCE

WHERE I LEARN AND HAVE FUN

At MakeStudios, I had the chance to work not only on Flash projects, but installations as well. It was a period that had to be cut short due to my enlistment to the army. National Service is something that all Singaporean men have to go through for 2 years. During my 2 years I was freelancing as well to keep up to date with the latest technologies.

Once I finished army, I joined Euro RSCG on a 3 months contract. I was eventually offered a full time position, but after being offered a position in Kinetic, I decided to join Kinetic instead.
